

Reusable reliable stainless steel food storage

Greentainer is a safe alternative to plastic food storage containers and ideal for litter-free lunches at school. They are made fairly, in India, of high quality, food grade stainless steel, in a hygienic, shiny finish. The edges are smooth and rolled and they are 100% plastic free and dishwasher safe.

Reusable Use your greentainer everyday. Wash it simply with soap and water, or throw it in the dishwasher, like your pots and pans they last forever. Use it to store food at home on the shelf, in the fridge or even the freezer, or, taking food on the go. Use it as an alternative at deli counters instead of plastic containers. Use it for your babys' snacks or the school lunch. Toss all the plastic containers in your home and keep your greentainer collection for all your food storing needs.

Reliable You can trust that greentainer is made of high quality, food grade, stainless steel. Our stainless steel is tested regularly and our rapport with our factory is a close one. Different sizes or your choice of side clips or clip-free make it easy to tote any meal or snack around in an earth friendly manner. The large sizes have convenient inner trays to separate foods. You can rely on greentainer to be free of any toxins that may leach into your food when using plastic or plastic products. Stainless steel does not trap bacteria and so is the premium choice for hygiene.

Recyclable When you use greentainer you are not contributing to landfill. Greentainer is made from the Earth's own resources, and when its' long life is over, your great grandchild can toss it in the recycling bin

100% plastic-free, high quality food grade stainless steel made in India
