

roam wild

with portable power for your notebook

powergorilla is the portable charger to keep your notebook going for hours... and hours. Robust and rechargeable, this hard working primate will even charge your cell phone, iPod, handheld game console while it powers your notebook simultaneously.

Work hard and play hard – with powergorilla, to keep you in the game longer.

Compatible with:

Most notebooks, iPod, iPhone, PDAs, MP3/MP4, handheld games consoles, Sat Navs, Nokia, Mini Nokia, Motorola, Samsung, LG & Sony Ericsson and many standard cellphones.

- powergorilla's 24 volt capacity means you can use it for more than your laptop - it will power your sat nav, video camera and more...

Safety features

- Voltage limitation protection
- Current limitation protection
- Short circuits protection
- Anti-discharge protection
- Over-charging protection
- Over-heat protection (powergorilla will auto shut-off if the internal battery overheats due to prolonged exposure to sunlight or other heat source)

powergorilla can be charged from the AC/mains wall socket, which comes in your kit as well as the AC/mains from your laptop. You can also recharge powergorilla from the sun using solargorilla (not included, visit www.powertraveller.com for details)

Output capacity

21,000 mAh in 5V mode
6,500 mAh in 16V mode
5,500 mAh in 19V mode
4,200 mAh in 24V mode
5V = 1,000 mAh output
16V = 3.5A max output
19V = 2.5A max output
